

OBJECTIVE:

As a fresher Python developer, I am excited to learn, grow, and contribute to software projects. I am eager to apply my coding skills, learn from experienced professionals, and become a valuable member of a development team. I have worked on web projects using Django, which showcases my Python skills.

SKILLS:

- **Programming Languages:** Python
- **Web Framework:** Django Web Framework, Rest API
- **Web Technologies:** HTML5, CSS3, Bootstrap
- **Databases:** SQLite3
- **Operating Systems:** Windows
- **IDE'S:** VS Code, Notepad, PyCharm

EDUCATION:

Bachelor of Commerce (B.com)

| Apr 2023

Mohanlal Sukhadia University (MLSU), Udaipur, Rajasthan

CERTIFICATION & TRAINING:

Python Development Course - Agile Academy, Ahmedabad, Gujarat

EXPERIENCE:

IT Specialist (Resume Writer)

White Polar Technologies LLC

| Jul 2023 – Present

- Collaborate with clients to understand their career goals, skills, and achievements, ensuring a personalized and effective resume-writing service.
- Craft compelling and ATS-friendly resumes tailored to diverse IT roles, including software development, cybersecurity, network administration, and system analysis.
- Stay updated on the latest trends and best practices in IT recruitment and resume writing to provide clients with cutting-edge solutions.
- Conduct comprehensive interviews with clients to extract relevant information for resume creation, highlighting key accomplishments and technical skills.
- Utilize strong writing skills to create impactful, clear, and concise content that effectively communicates clients' technical expertise and achievements.
- Provide strategic advice on resume formatting, structure, and content optimization to enhance clients' visibility to hiring managers and recruiters.
- Collaborate with the editorial team to ensure quality control and adherence to industry standards in every resume produced.
- Engage in continuous learning and professional development to stay abreast of industry changes, emerging job market trends, and new technologies

PROJECTS:

- **Django Project:** Developed a comprehensive Student Marksheet Management System using Django, enabling the creation and management of student profiles with details such as name, class, section, and percentage.
- **Python Project:** Designed and implemented a basic ATM Machine Transaction System in Python, facilitating key functionalities like account balance inquiry, deposits, and withdrawals.
